Preface

This Catalog Supplement is intended to serve as an official update of the university's curricula as published in the 1991-92 catalog. Official university policy and information is contained in the catalog.

Every effort has been made to ensure the accuracy of this publication. However, the provisions in this supplement are not to be regarded as an irrevocable contract between the student and the university. The university reserves the right to revise course requirements and descriptions as it deems academically appropriate throughout the year.

The Catalog Supplement is not intended for general student use. CSU, Stanislaus directs students to pursue the policies and information contained in the 1991-92 catalog and to seek the assistance of a university adviser in regard to specific requirements, regulations, and catalog provisions.

Unless otherwise noted as "change only," "reactivated," or "deactivated," the courses listed in this supplement are new and have been added to the Catalog Master since the publication of the 1991-92 University catalog.

Catalog Orders

Reference copies of the catalog and catalog supplement are available in the Vasche Library; personal copies can be purchased at the Kiva Bookstore for $3.50 for the catalog and $.75 for the supplement.

Schedule of Fees, 1992-1993

Registration Fees

Legal residents of California are not charged tuition. The following registration fees reflect applicable fees and nonresident tuition based on fee authorizations as of the time of this printing. All fees are subject to change without prior notice. Fee increase legislation is pending for the 1992-93 academic year. Students will be notified when the 1992-93 registration fees are established.

Total registration fees for California residents are approximately $1,562 per academic year: $485 each Fall and Spring semester; $92 for Winter Term. Total registration fees and tuition for nonresidents are $8,842 per academic year (for 30 units); $3,683 each Fall and Spring semester; $1,076 for Winter Term.

Registration fees are payable to CSU-Stanislaus at the time of registration. No individual can be admitted to a class prior to payment of all required fees.

No fees of any kind shall be required of, or collected from, those individuals who qualify for such exemption under the provisions of the Alan Pattee Scholarship Act.

The nonresident tuition fee is payable by all students who have not been legal residents of the State of California for at least one year, immediately preceding the residence determination date.

Tuition payable by nonresident and foreign visa students is in addition to fees required of resident students, except for enrollment in extension or summer sessions. Questions regarding residency classification for admission eligibility and tuition purposes should be directed to the Residency Clerk in the Admissions and Records Office.

Initial determination of residence status is made by the University officials prior to, or at the time of, registration and fees must be paid at registration. Full refund of nonresident fees paid will be made if final determination by the University's legal adviser indicates that a student is a legal resident. For more detailed information on residency determination and exceptions to tuition, refer to "Determination of Residence," Appendix C of the 1991-92 Catalog.

In all cases it is
important to act quickly in applying for a refund. Information concerning any aspect of refund of fees may be obtained from the University Comptroller. (See also "Refund Regulations," Appendix E of the 1991-92 Catalog.)

Accreditation

California State University, Stanislaus is fully accredited by the Western Association of Schools and Colleges. The Chemistry Department is nationally accredited by the American Chemical Society, the Music Department by the National Association of Schools of Music, the Art Department by the National Association of Schools of Art and Design, the Drama Department by the National Association of Schools of Theatre, the Master of Public Administration program by The National Association of Schools of Public Affairs and Administration (NASPAA), the Computer Science Department by the Computing Sciences Accreditation Board, and the Nursing Department by the National League for Nursing. The programs of the School of Education have achieved distinction through accreditation at the national level by the National Council for Accreditation of Teacher Education (NCATE), at the regional level by the Western Association of Schools and Colleges (WASC), and at the state level by the California Commission on Teacher Credentialing (CTC).

Cooperative Education Program

The central office for coordinating Cooperative Education placements has been discontinued. Placement of students in Cooperative Education appointments is the responsibility of the appropriate department through which the student registers for Cooperative Education credit.

California Articulation Number

The California Articulation Number (CAN) System identifies some of the transferable, lower-division, introductory, preparatory courses commonly taught within each academic discipline on college campuses.

The system assures students that CAN courses on one participating campus will be accepted "in lieu of" the comparable CAN course on another participating campus. Example: CAN ECON 2 on one campus will be acceptable for CAN ECON 2 on another participating campus. Each campus retains its own numbering system.

Although the system is in the development stage, it is expected that most campuses throughout the state will qualify to participate and use CANs. Check with the University Articulation Officer, 667-3081, for lists of participating campuses and courses.

The California Articulation Numbers are listed parenthetically by the course description in this catalog. At present, the qualifying CSU Stanislaus courses are:

English Placement Test (EPT)

All new undergraduate students must be completed by all 'new' non-exempt undergraduates prior to placement in appropriate university English coursework. Exemptions from the test are given only to those who present proof of one of the following:

- a score of 3, 4, or 5 on either the Language and Composition or the Composition and Literature examination of the College Board Advanced Placement Program;
- a score on the CSU English Equivalency Examination that qualifies a student for exemption from the English Placement Test;
- a score of 470 or above on the Verbal section of the College Board Scholastic Aptitude Test (SAT-Verbal);
- a score of 22 or above on the ACT English Usage Test (taken prior to October 1989);
- a score of 25 or above on the enhanced ACT English Test (taken October 1989 or later);
- a score of 600 or above on the College Board Achievement Test in English Composition with essay;
- for transfer students, completion and transfer to the CSU of an acceptable college course in English composition of four quarter or three semester units with a grade of C or better.

Information bulletins and registration materials for the EPT will be mailed to all students subject to the requirements. The materials may be obtained also from the Office of Admissions and Records or the University Testing Office.

† Undergraduates admitted with 56 or more transferable semester units and who are subject to a campus catalog or bulletin earlier than 1986-87 are not required to complete the EPT.

Entry-Level Mathematics Test (ELM)

All new undergraduate students must take the Entry-Level Mathematics test before enrolling in any mathematics course (including remedial) unless exemption from this test can be demonstrated. Exemptions from the test are given only to those students who can present proof of one of the following:

- a score of 3 or above on the College Board Advanced Placement mathematics examination (AB or BC);
- a score of 560 or above on the mathematics section of the Scholastic Aptitude Test (SAT-MATH);
- a score of 27 or above on the American College Test (ACT) Mathematics Test (taken prior to October 1989);
- a score of 28 or above on the enhanced ACT Mathematics Test (taken October 1989 or later);
- a score of 560 or above on the College Board Math Achievement Test, Level 1 or Level 2;
- for transfer students, completion and transfer to the CSU of a college course that satisfies the General Education-Breadth Requirement in Quantitative Reasoning, provided such a course was completed with a grade of C or better.

Satisfaction of the ELM requirement is a prerequisite to enrollment in a course which satisfies the General Education-Breadth requirement in quantitative reasoning. Satisfaction of the ELM requirement can be achieved through any of the following:

- Exemption from the ELM test requirement as listed above, or
- taking and passing the ELM, or
- taking the ELM test and, in the event of failure to pass it, enrolling in an appropriate course of remedial study at CSU, Stanislaus which culminates in the satisfactory completion of MATH 0105 Intermediate Algebra.

Failure to take either of these tests, as required, at the earliest opportunity after admission, and definitely before the end of the first semester of enrollment, may lead to administrative probation, which, according to Section 41300.1 of Title 5, California Code of Regulations, and CSU Executive Order 393, may lead to disqualification from future attendance.

Information bulletins and registration materials for the EPT and ELM will be mailed to all students subject to the requirements. The materials may also be obtained from the Office of Admissions and Records or the University Testing Office.

Liberal Studies

The program for the Bachelor of Arts in Liberal Studies has been revised. The following is the updated version from the Catalog. Completion of the new major will be required by those students entering the institution in the Fall Semester 1992. Those students should refer only to this document.

Bachelor of Arts, Liberal Studies

Requirements

1. Complete the liberal studies major including all requirements in each of the four subject matter areas (A, B, C, D below).

2. Select an area of concentration. Units from courses completed in the concentration may be cross-counted, that is, counted both in the area of concentration and the appropriate subject matter area. CR/grades are not allowed in the concentration except where no other grading option is available.

Note: Completion of the Liberal Studies program fulfills all General Education requirements. The program must conform to all other graduation requirements, however, including 128
total units; 40 upper-division units, and Winter Term courses.

Coordinating with the Multiple Subjects Teaching Credential Program

Liberal Studies is the only major with an approved waiver program leading to the multiple subjects credential program (MSCP). Liberal Studies majors on the 1991-92 catalog must complete the following curriculum if they wish to obtain a waiver of the National Teachers Examination. Successful completion of that examination is a requirement for entry into the Multiple Subjects Credential Program. To obtain an NTE waiver, Liberal Studies majors on any pre-1991 catalog must complete their waiver program by September 1, 1994 or become subject to the following curriculum. See the “School of Education” section of this catalog and the MSCP application packet for other academic and professional admission requirements. Also see the Liberal Studies or Multiple Subjects Credential Coordinator for details.

Students may be admitted into the credential program in Education before obtaining a bachelor’s degree. With careful planning, students should be able to complete both the preliminary multiple subjects credential and the Bachelor of Arts degree in Liberal Studies by the end of their senior year. The units required in education for the credential program may count as upper-division credit toward the 124 units required for the bachelor’s degree.

Courses listed under Area G must be completed to obtain a waiver. They are not required of students who do not wish to obtain a waiver. See your Liberal Studies adviser for more information.

The deadlines for submitting complete applications for admission to the credential program are: in October—to commence course work the following Spring Semester; and in March—to commence course work the following Fall Semester. Note that submission of completed applications must be well in advance of the term of entry into the program. Applications may be submitted before all necessary course work is completed.

The Liberal Studies Coordinator must approve MSCP students for subject matter competency. Subject matter competency requires that all courses in liberal studies subject matter areas must be met with grades of at least C, or all part-scores of the NTE must be met with scores of at least 66: See the Liberal Studies Coordinator for details well before entrance into the MSCP to avoid delaying progress toward the credential.

Liberal Studies Subject Matter Areas

CSU Stanislaus courses listed below apply to the fulfillment of the subject matter areas. Consult the “Schedule of Classes” for approved Winter Term courses that may also fill these subject matter requirements. Other CSU Stanislaus substitutions for these courses must be approved by petition to the Liberal Studies Coordinator before enrollment in the class; this safeguards the student from making substitutions that may not be acceptable for the multiple subjects credential waiver program. Electives must be determined in consultation with Liberal Studies advisers.
